

Kalachakra Stupa Project -Tashi Choeling Buddhist Center plans to build a Kalachakra Stupa with surrounding gardens to raise awareness for world peace.

Kalachakra is an inspiration for world peace and the stupa is a representation of Kalachakra's mind. Great merit may be generated by circumambulating great stupas such as this.

The stupa is planned to be 8 feet high made of concrete and painted white. This design is taken from the original Kalachakra Stupa in South India where Buddha Shakyamuni taught the Kalachakra Tantra.

Please help us with this very important project. Visit [www.tcpci.org](http://www.tcpci.org) to make a donation.
